## DEPARTMENT OF LABOR

### Employment Standards Administration

#### Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions  
of the Secretary of Labor are issued in  
accordance with applicable law and are  
based on the information obtained by  
the Department of Labor from its study  
of local wage conditions and data made  
available from other sources. They  
specify the basic hourly wage rates and  
fringe benefits which are determined to  
be prevailing for the described classes of  
laborers and mechanics employed on  
construction projects of a similar  
character and in the localities specified  
therein.

The determinations in these decisions  
of prevailing rates and fringe benefits  
have been made in accordance with 29  
CFR Part 1, by authority of the Secretary  
of Labor pursuant to the provisions of  
the Davis-Bacon Act of March 3, 1931,  
as amended (46 Stat. 1494, as amended,  
40 U.S.C. 276a) and of other Federal  
statutes referred to in 29 CFR Part 1,  
Appendix, as well as such additional  
statutes as may from time to time be  
enacted containing provisions for the  
payment of wages determined to be  
prevailing by the Secretary of Labor in  
accordance with the Davis-Bacon Act.  
The prevailing rates and fringe benefits  
determined in these decisions shall, in  
accordance with the provisions of the  
foregoing statutes, constitute the  
minimum wages payable on Federal and  
federally assisted construction projects  
to laborers and mechanics of the  
specified classes engaged on contract  
work of the character and in the  
localities described therein.

Good cause is hereby found for not  
utilizing notice and public comment  
procedure thereon prior to the issuance  
of these determinations as prescribed in  
5 U.S.C. 553 and not providing for delay  
in the effective date as prescribed in that  
section, because the necessity to issue  
current construction industry wage  
determinations frequently and in large  
volume causes procedures to be  
impractical and contrary to the public  
interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the Federal Register, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, N.W., Room S-3014, Washington, D.C. 20210.

Agencies with construction projects pending, to which this wage decision would have been applicable, should utilize the project determination procedure by submitting a SF-308.

Contracts for which bids have been opened shall not be affected by this notice. Also, consistent with 29 CFR 1.6(c)(2)(i)(A), when the opening of bids is less than ten (10) days from the date of this notice, this action shall be effective unless the agency finds that there is insufficient time to notify bidders of the change and the finding is documented in the contract file.

### Northeast Nuclear Energy Company; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Northeast Nuclear Energy Company (the licensee) to withdraw its May 26, 1995, application for proposed amendment to Facility Operating License No. DPR-21 for Millstone Nuclear Power Station, Unit 1, located in New London County, Connecticut.
